

Marta Gałuszewska, That's Just Life

I woke up this morning
like I always do
and my coffee's spilling
on my brand new shoes
and I missed my train

I've run of excuses
how do i get through this

I remember when they told me times get tough
I remember they left me to find myself
I remember when I will get rough
but I never thought to be this way

we live, we learn, we grow,
that's how it's goes
we all get burn and pray for miracles
that's just life
ever when we're stumbling
we're all in it together
we live, we learn, we grow,
that's how it's goes
that's just life

another weather report is telling me lies
I'm not wearing enough
it's freezing outside
I'm gonna get your coat

I've run of excuses
how do i get through this

I remember when they told me times get tough
I remember they left me to find myself
I remember when I will get rough
but I never thought to be this way

we live, we learn, we grow,
that's how it's goes
we all get burn and pray for miracles
that's just life
ever when we're stumbling
we're all in it together
we live, we learn, we grow,
that's how it's goes
that's just life

that's just life
that's just life
that's just life
that's just life

we live, we learn, we grow,
that's how it's goes
we all get burn and pray for miracles
that's just life
ever when we're stumbling
we're all in it together
we live, we learn, we grow,
that's how it's goes
that's just life

that's just life
that's just life

that's just life
that's just life
