

# Martin Garrix, No Sleep (feat. Bonn)

Summer nights  
All alive  
As we drown in the moonlight  
We collide In plain sight  
I know we'll be alright

and we come alive  
we run the night with strangers  
cause it's in the air  
we're all familiar faces  
we own the wild  
enjoy the ride  
we made it  
we made it  
I don't need no sleep  
cause I am already dreaming  
already dreaming  
say you'll never leave  
because I ove the feeling  
I love the feeling  
found myself through wicked nights  
see you through my lucid eyes  
I don't need no sleep  
cause I am already dreaming  
already dreaming  
I don't need no sleep  
cause I am already dreaming  
already dreaming

wide away  
no time to waste  
make a mark on my timeline  
we're safe and sound  
we come around  
we are dancing the sun down

and we come alive  
we run the night with strangers  
cause it's in the air  
we're all familiar faces  
we own the wild  
enjoy the ride  
we made it  
we made it  
I don't need no sleep  
cause I am already dreaming  
already dreaming  
say you'll never leave  
because I ove the feeling  
I love the feeling  
found myself through wicked nights  
see you through my lucid eyes  
I don't need no sleep  
cause I am already dreaming  
already dreaming  
I don't need no sleep  
cause I am already dreaming  
already dreaming

I don't need no sleep  
cause I am already dreaming  
already dreaming
