

Martin Garrix, Now That I've Found You (feat. John & Michel)

Flashback to the time in your life
When thought it would be easy
But it's hard when you're taking the world alone
The one shot that you fire at the sky
Hoping someone else can see it
Just a sign that you're not on your own, you know

We come one tonight
I've been waiting for your wake up call
Growing stronger now
I can hear it in a thunderstorm
We sing: "Oooo!"
I don't want to do this without
I won't let go now that I've found you
Now that I've found you

I won't let go now that I've found you
I won't let go now that I've found you
Now that I've found you

Some say you can't never go back
To the city bed for dreamers
But I know we can find it on, you know
The one shot that you fire at the sky
But this time we are together
We're right here in this moment where we belong

We come one tonight
I've been waiting for your wake up call
Growing stronger now
I can hear it in a thunderstorm
We sing: "Oooo!"
I don't want to do this without
I won't let go now that I've found you
Now that I've found you

Now that I've found you
I won't let go now that I've found you
Now that I've found you
