

Metronomy, Old Skool

I love acting
I'm not acting
So that's old thing
This new thing
In the city
We drive a taxi
In the front seat
You won't find me

Keep your friends
And keep my friends
How far party
In the western
Make some money
make more money
With your new friends throw a party

..
For night climate
Find diamond
I love sex and I love dancing
Climates in your back seat

Keep your friends
And keep my friends
How far party
In the western
Make some money
make more money
With your new friends throw a party

What your percentage
What your money
I stop acting
And ain't funny
In the city
We smoke toxins
In the back seat
Where you find me

Keep your friends
And keep my friends
How far party
In the western
Make some money
make more money
With your new friends throw a party
