

# New Order, Tutti Frutti (feat. Elly Jackson)

Tutti frutti  
Amore mio  
Tutti frutti  
No  
Non è ancora il momento di entrare.  
Non è ancora il momento di...

Life is so crazy these days  
I don't know how to adjust  
Are we the master or slave?  
Do we need passion or lust?

Are we just caught in the days  
So many words in a phrase  
Life is so crazy these days  
Life is so crazy these days

You've got me where it hurts  
But I don't really care  
Cause I know I'm OK  
Whenever you are there  
You take me to a place  
I always wanna go  
You always make me high  
Whenever I feel low

I'm paper in your hand  
I'm under your command  
And I'll never let you go  
Cause you're that girl

Tutti Frutti

I had a beautiful dream  
For a picture so serene  
But I don't know what it means - love  
I just want your love

Generation's lost in space  
Trying to find the human race  
We're living in a state of grace  
Where every scholar means a dollar

And sometimes I just can't go on  
I feel like I'm a setting sun  
I know my eyes are burning bright  
I just need you to make it right

You've got me where it hurts  
But I don't really care  
Cause I know I'm OK  
Whenever you are there  
You take me to a place  
I always wanna go  
You always make me high  
Whenever I feel low

Tutti Frutti

You've got me where it hurts  
But I don't really care  
Cause I know I'm OK  
Whenever you are there  
You take me to a place

I always wanna go  
You always make me high  
Whenever I feel low

You've got me where it hurts  
But I don't really care  
Cause I know I'm OK  
Whenever you are there  
You take me to a place  
I always wanna go  
You always make me high  
Whenever I feel low

Whenever I feel low  
Whenever I feel low  
Whenever I feel low  
Cause you're that girl

Tutti Frutti
