Nick Jonas, Bacon (ft. Ty Dolla \$ign)

Pretty mind, silk thoughts Start a fire when you turn the lights off

I know you been hoping I give in But I ain't feeling that feeling, no Babe, you're right, maybe I', tripping The one thing I love more than being with you

And that's late nights, doing what I wanna do I got sleep eyes
I woke up like this
Feel like
Shit
Throw some becon on it
One thong I love more than being with you
Sizzling white hot
Give me that sugar with the sweet talk
You're perfect, but I'm not
So how do we end up in the worst spot?

I know you been hoping I give in But I ain't feeling that feeling, no Babe, you're right, maybe I', tripping The one thing I love more than being with you
