

R3HAB & Icona Pop, This Is How We Party

I jumped the line
And you're always waiting for me
It's who I am
And you're in my territory

I'll go , go , go
we get it on
I'm chemical
just getting started
get low, low, low
it's all that you wanted
you got what you wanted
do you know that

this is how we party
foolin' with your body
come on everybody
you can't get enough of me
this is how we party
foolin' with your body
don't know how we started
you can't get enough of me
you can't get enough of me
you can't get enough of me

don't waste my time
follow me now or never
just close your eyes
to see what inside together

I'll go , go , go
we get it on
I'm chemical
just getting started
get low, low, low
it's all that you wanted
you got what you wanted
do you know that

this is how we party
foolin' with your body
come on everybody
you can't get enough of me
this is how we party
foolin' with your body
don't know how we started
you can't get enough of me
you can't get enough of me
you can't get enough of me
