

# R3HAB x Mike Williams, Lullaby

Hypnotized this love out of me  
without your air I can  
t even breath  
lead my way out into the light  
sing your lullaby  
cherries in the stray  
take me through the day  
I just gotta make you drunk in memory  
see you at the party  
as long as you're with me  
sleeping in my bathtub  
but can wish you were late

keep me safe up in the clouds  
cause I can't come raining down  
make the monsters sleep in my minds  
sing your lullaby
