

R3HAB x Mike Williams, Lullaby

Hypnotized this love out of me
without your air I can
t even breath
lead my way out into the light
sing your lullaby
cherries in the stray
take me through the day
I just gotta make you drunk in memory
see you at the party
as long as you're with me
sleeping in my bathtub
but can wish you were late

keep me safe up in the clouds
cause I can't come raining down
make the monsters sleep in my minds
sing your lullaby
