## R3HAB x Mike Williams, Lullaby

Hypnotized this love out of me without your air I can t even breath lead my way out into the light sing your lullaby cherries in the stray take me through the day I just gotta make you drunk in memory see you at the party as long as you're with me sleeping in my bathtub but can wish you were late

keep me safe up in the clouds cause I can't come raining down make the monsters sleep in my minds sing your lullaby
