Robin Schulz, SPEECHLESS (FEAT. ERIKA SIR

I remember how it all started feeling warm though the summer was over and our little lives they felt so big then we're only reaching stars and I am a big black star and you said to me

if you love me then say you love me and you are mine hey come on darling stop the hiding speak your mind

I loved you but you left me speechless then say if you love me then say you love me and you are mine

I remember how it all started feeling warm though the summer was over and our little lives they felt so big then we're only reaching stars and I am a big black star and you said to me

if you love me
then say you love me
and you are mine
hey come on darling
stop the hiding
speak your mind

I loved you but you left me speechless then say if you love me then say you love me and you are mine

you left me SPEECHLESS
