

# Rudimental & Rita Ora, Summer Love

I like the way you leave me with a taste of my tongue  
I like the way you whisper when you tell me you love me  
I swear that I can give you every breath in my lungs  
As long as you can promise that you'll be here to hold me

No, I can't wait to fall into this web you've spun  
No, I don't wanna get back up, just keep me now

summer /2x  
love, keep me high  
I;m not alone  
won't you stay a while  
summer love by my side  
we can rule the world,  
just you  
summer love by my side  
we can rule the world,  
just you and i

I love the way you hold me with the words that you say  
you're the only one that lifts me when there's no one around  
it may not last forever but I guess it's ok.  
as long as you can love me just one last time

No, I can't wait to fall into this web you've spun  
No, I don't wanna get back up, just keep me now

summer /2x  
love, keep me high  
I;m not alone  
won't you stay a while  
summer love by my side  
we can rule the world,  
just you  
summer love by my side  
we can rule the world,  
just you and i

kiss me now  
summer love by my side  
we can rule the world,  
just you  
summer love by my side  
we can rule the world,  
just you and i
