Sam Smith, Kids Again

Can't believe i still avoid est side Even though i know that you don't live there now Lately you're the only thing on my mind And i cn't stop myself on drivin' by your house

Every time i hear a song
It kind of hurts me still
And , ooh, even after all this time
I kinda miss you still
I am wondering

Do you even think about me?
The way that we changed the world
And don't make you sad
That we'll never be kids again
No, we will never be kids again
Tell me how you live without it
Did somebody change your world
And now you don't look back?
Cause we'll never be kids again
No, we'll never, never, ever, ever

Livin' out of suitcases and hotels Drinking way too much and talking through the night Really wish i didn't know you so well Wouldn't be so hard to leave the past behind

Every time i hear a song
It kind of hurts me still
And , ooh, even after all this time
I kinda miss you still
I am wondering

Do you even think about me?
The way that we changed the world
And don't make you sad
That we'll never be kids again
No, we will never be kids again
Tell me how you live without it
Did somebody change your world
And now you don't look back?
Cause we'll never be kids again
No, we'll never, never, ever, ever
