The last one

Sick as a pig, can you help?  
Tryna get a grip  
Fingers slip tthen i melt  
Sittin' in a pit  
Only me and myslef  
I can't deal with the screams  
Only scereamin' at myslef  
Tryna protect so i project  
Deflect and the cal lit self-defense

Feel the pressure  
Ans we all goot the reason  
Smile on the out  
But inside i keep bleeding  
Fun and games  
Ill yougotta the blame  
Abd i said was me  
Cause i'd do it for my mates  
Then again  
Would they say the same?

And it's all tongue-in-cheek  
Tryna sweep out the fakes  
Love never felt real  
The wheels won't brake  
They can't see the tears through the raindrops  
Tough lad and i always put a face on  
Told me already that leopards can't change spots
