

# SZA, The Anonymous Ones (z filmu Drogi Evanie

Ever look at all the people  
Who seem to know exactly how to be?  
How to be, how to be, no  
How to be  
You think they don't need piles  
Of prescriptions to function naturally?  
Functioning natural

Take a look and you might catch it  
Stay a minute more  
minute more /4x  
therr's a little momnent  
after the sunny smile  
their eyes fall to the floor  
to the floor /4x

and tehn truth starst peaking through  
they're a lot like me and you  
they can fake a smile too

The anonymous ones  
Who never let you see the ache they carry  
They carry, they carry, they carry  
All those anonymous ones  
Never name the quiet pain they bury  
They bury, they bury, they bear

Keep on keeping secrets  
That they think they have to hide  
What if everybody's secret is  
They have that secret side?

(??)

and tehn truth starst peaking through  
they're a lot like me and you  
they can fake a smile too

The anonymous ones  
Who never let you see the ache they carry  
They carry, they carry, they carry  
All those anonymous ones  
Never name the quiet pain they bury  
They bury, they bury, they bear
