

# The Chainsmokers, Push My Luck

broad street  
yeah we met overt sake  
might have started off rocky  
and round our first date

but last night  
when you finally called me  
I ran straight thru the lobby  
I couldn't keep you waiting

and I know /4x  
that you like your space  
whit your one roommate  
do you mind if I see you tomorrow?

yeh i know /4x  
that you work Sundays from minimum wage  
should I have known that you would take hold and  
never let go? /2x

I think I might push my lusk whit you  
does another night feel alright to you?  
if I ask right now would you think it through
