

# The Wanted, Rule The World

We all wanna Rule The World  
Face calved into stone  
We all wanna rule the world  
But can't do it alone

Somedany, when you get older  
You're gonna see the world  
Far away From where tyou grow up  
You will find yourseld for sure

When you reach the stars  
Reach the srtars  
Don't you ever change who you are  
And together we came this far  
So far

We all wanna Rule The World  
Face calved into stone  
We all wanna rule the world  
But can't do it alone  
We all wanna Rule The World  
We all wanna Rule The World

People they'll try to tell you  
Who you're supposed to be  
They only see the outline  
But not the in-between

When you reach the stars  
Reach the srtars  
Don't you ever change who you are  
And together we came this far  
So far

We all wanna Rule The World  
Face calved into stone  
We all wanna rule the world  
But can't do it alone  
We all wanna Rule The World  
We all wanna Rule The World
