

# Tina Turner, Whatever You Need

In what you lives have I know your kiss  
And what forgotten moments have I felt like this  
The way you touch me I come undone  
You know me more than anyone  
Whatever you want

In what other lives have I tyouched your face  
And what wods did we whisper  
In a strange forbidden place  
To be with you baby is to find myself  
We're 2 of a kind you and I  
I couldn't love anyone else  
You're my beginning my end  
You're my lover my friend  
In this life in this time

Whatever you want  
Whatever you need  
I will be right here waiting  
Baby /3x  
/2x

In what other lives did I feel your skin  
And when exactly did I breathe you in  
Feel like I've known you for a 1000 years  
You're so familiar to me and there's no fear  
You're my beginning my end  
You're my lover my friend  
In this life in this time  
Whatever you want  
Whatever you need  
I will be right here waiting  
Baby /3x  
/2x

Watch the Sun goes down  
My past and future in you are bound  
I watch as time moves on  
I'm alive and strong  
And when I'm with you  
There's no right no wrong
