

# W. Dyduła vs. J. Stolpe, Look What I Found (Bitwy)

I'm alone in my house  
I'm out on the town  
I;m at the bottom of the bottle  
I;m there knocking them down

I can't get back up on my feet  
see the lights all on the streetlights stars

but look what I found look what I found  
another piece of my heart  
just lying on the ground

another foggy day  
I;m looking for a light  
and my only prayer is working tonight

I can't get myself out of bed  
hear these voices in my head like a song

but look wht I found  
somebody who loves me  
look what I found  
somebody who carries  
around a piece of my heart  
just lying on the ground

when I met you I was blown to pieces  
heart all o ver the floor  
even since you put me back together  
I can't believe it, can't believe it
