

WATTS, Khalid, Feels (feat. Khalid)

It feels like i am running
Far away, every day
I still wanna move in
Trying hard to find a way back
Who are these people
With their ears to the ground
And i see that they're talking
But i can't hear a sound

I can't fight this feeling
And i don't want to change
Shit i can't fight this feeling
It's driving me insane
Tell everyone i am leaving
Cause i don't want to stay
But i can't fight this feeling
It's driving me insane
It's driving me insane
driving me insane

i stand in the corner
the walls around are falling down
and i see that you notice
but keep your words all to yourself
we all different people
but we're together now
and i know that we're equal
i am tryna work this out

I can't fight this feeling
And i don't want to change
Shit i can't fight this feeling
It's driving me insane
Tell everyone i am leaving
Cause i don't want to stay
But i can't fight this feeling
It's driving me insane
It's driving me insane
driving me insane

and i wonder if i'll ever get away now
away now
got me dreaming of the changes that we'll make now

but I can't fight this feeling
And i don't want to change
Shit i can't fight this feeling
It's driving me insane
Tell everyone i am leaving
Cause i don't want to stay
But i can't fight this feeling
It's driving me insane
It's driving me insane
driving me insane
