

Years & Years, Palo Santo

you're the darkness in my

I...

I'm waiting spirits tonight
and I can't hear your voice
I've got nothing to hide
cause you're with another boy
and I'm caring the sky
I'm having visions manifesting us in time
so I arrive from the coast
I've got three more days
I know you want me the most
want me in an altered state
I've been sleeping with ghost
and I swallow medication
you should know

strike a match and whisper my name
speak in tongues, bend me, till I break

and I'm giving in to your fever touch
let it all begin when the fire starts
you're the darkness in me, Palo Santo
and the memories are filling up with smoke
you'll remember me and I start to choke
you're the darkness in my , Palo Santo
(burning, burning)

there's a mark on my skin
make you hot with shame
cause I'm in love with the sin
and I know how to take the blame
and I let you win
do I look good in the position, just like him?

strike a match and whisper my name
speak in tongues, bend me, till I break

and I'm giving in to your fever touch
let it all begin when the fire starts
you're the darkness in me, Palo Santo
and the memories are filling up with smoke
you'll remember me and I start to choke
you're the darkness in my , Palo Santo

I want /3x
all the danger
come on /3x
keep me craving
this sweet intoxication shakes my soul
I want /3x
all the danger
come on /3x
keep me craving
this sweet intoxication shakes my soul

and I'm giving in to your fever touch
let it all begin when the fire starts
you're the darkness in me, Palo Santo
and the memories are filling up with smoke
you'll remember me and I start to choke
you're the darkness in my , Palo Santo

you're, you're the darkness
you're the darkness in my , Palo Santo
you're, you're the darkness
you're the darkness in my , Palo Santo
