

Zara Larsson, Nobody Is An Island

Nobody is an Island
Even when the water's getting high
Hold my hand
Underneath the Surface
You know
I'll be with you to face the tide
So we've been dreaming of the sun
Waiting for this moment way too long
Time to let it shine on everyone

Just hit me up
And i'll be right there beside you
Doing what we wanna whenever we like to
And i will fly oceans
To let you know
That you ain't gotta do it on your own
Nobody is
Nobody is an Island

Nobody should be silent
When there's so much left for them to say
So let's scream and shout
Is as loud as we want
Till the whole world knows
That we are here to stay
We've been dreaming of the sun
Been Waiting for this moment way too long
Time to let it shine on everyone

Just hit me up
And i'll be right there beside you
Doing what we wanna whenever we like to
And i will fly oceans
To let you know
That you ain't gotta do it on your own
Nobody is
Nobody is an Island
