

# ZHU, Testarossa (feat. Gallant)

You're waking up with the demons  
Girl, you get me up  
Our bodies deceived us  
Crucified us  
You better believe it  
We could die from the rush  
Our love is a reason

These walls come falling down  
Can we keep the flames from burning out  
We're left with what we found  
We'll never go, we'll never go

Baby, if we never know  
Just tell me we're holding on  
We're holding on to us  
/2x

Do you remember the ways that your body was craving for me, baby?  
I've been thinking for days  
If we change up the pace  
Do you think it'll faze you?  
You better believe it  
We could die from the rush  
Our love is a reason

These walls come falling down  
Can we keep the flames from burning out  
We're left with what we found  
We'll never go, we'll never go

Baby, if we never know  
Just tell me we're holding on  
We're holding on to us  
/2x
